Answer: Average family income of the student is 0-2 lakhs as 4.5k students have belong to this range of income.

6. How does GPA vary among different colleges? (Show top 5 results only)

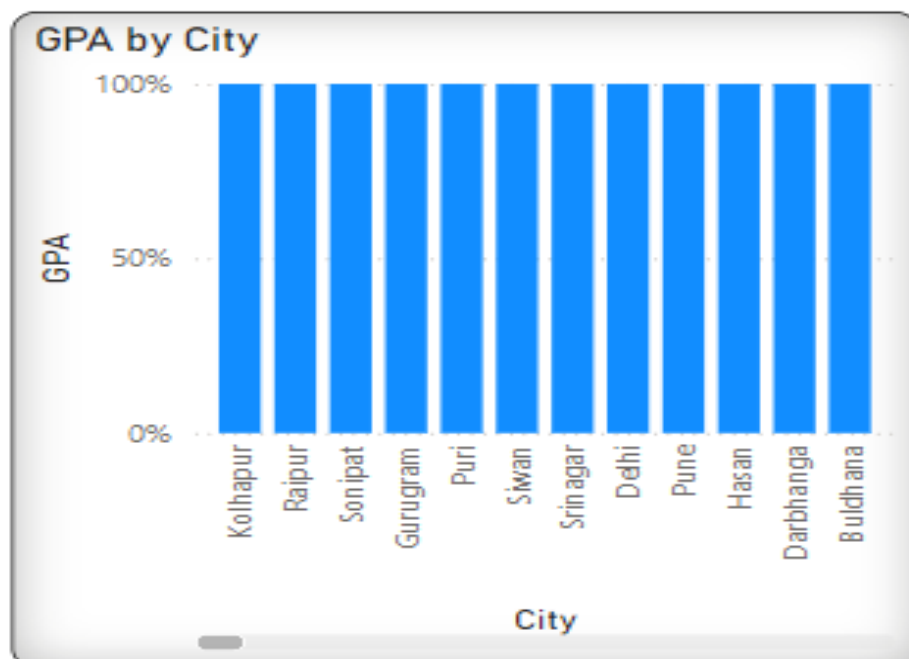

Answer:

1. St.Xavier's College – 8.20
2. Thakur Institute -8.17
3. AP Shah Institute -8.16
4. B.K. birla College -8.16
5. Vidyalankar Institute -8.12

7. What is average GPA for student from each city ?

Answer: Kolhapur has highest GPA followed by Raipur, Sonipat, Gurugram, Puri and Siwan.

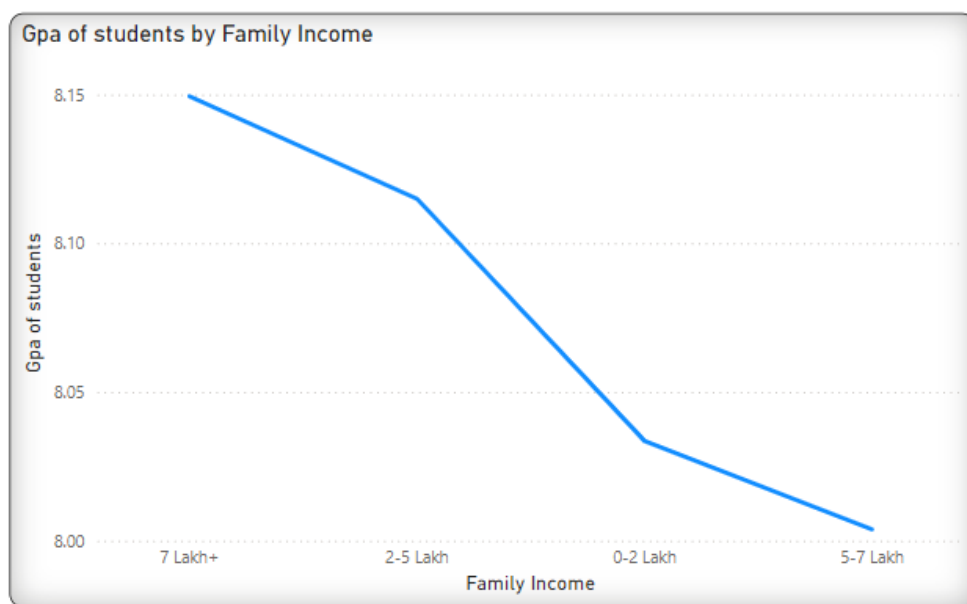

8. Can we identify any relationship between family income and GPA?

Answer:

- Students with a family income of "0-2 Lakh" have an average GPA of around 8.034.
- Students with a family income of "2-5 Lakh" have a slightly higher average GPA of approximately 8.115.
- Students with a family income of "5-7 Lakh" have a lower average GPA of about 8.004.
- Students with a family income of "7 Lakh+" have the highest average GPA of around 8.149.

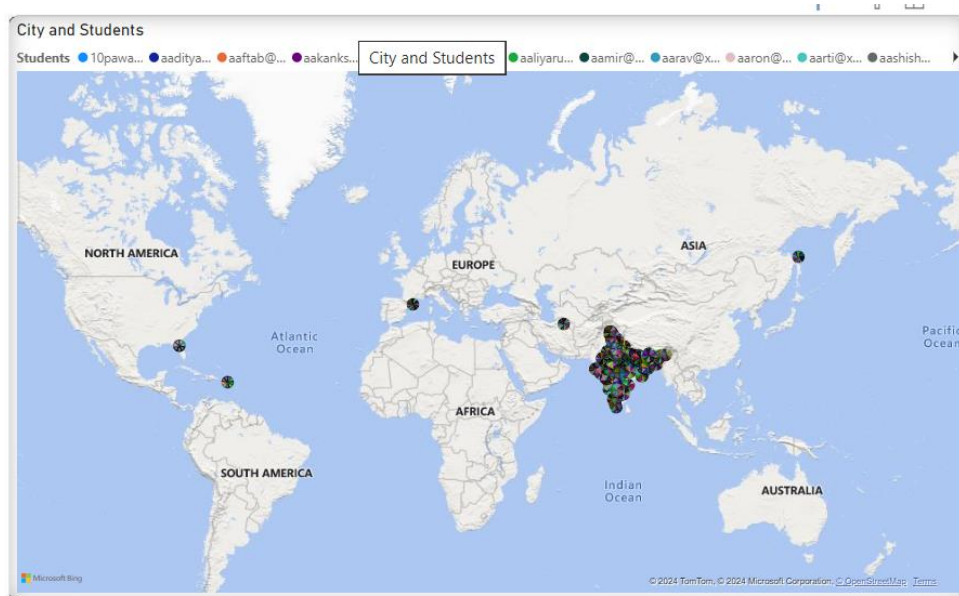

There seems to be an inverse relationship between family income and average GPA, where students from higher income families tend to have slightly lower GPAs compared to those from lower income families.

Moderate Questions (Any 8 out of 9)

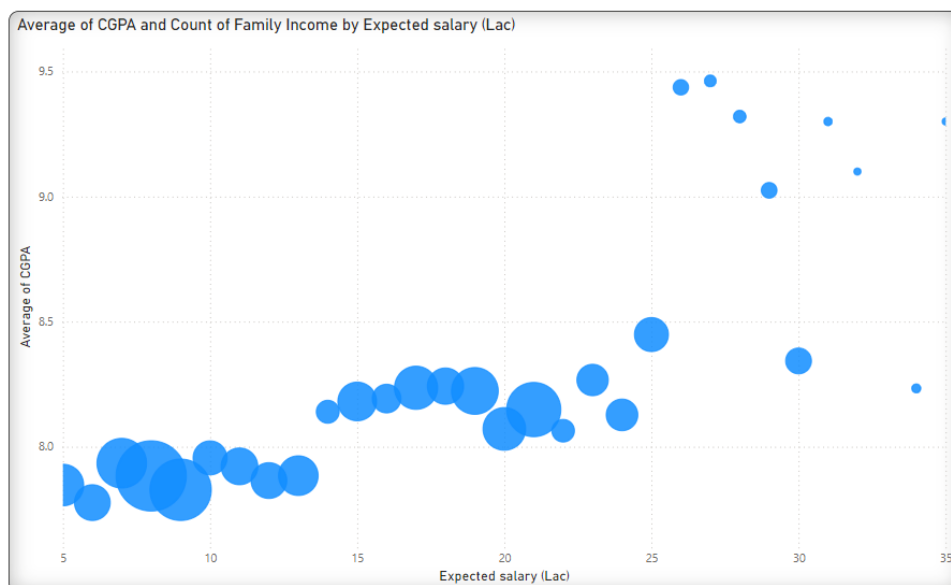

1. How many students from various cities?

Answer: the list is very long as there are many cities so the data is exported as a csv file and submitted separately.
